Appl. 10/508,967 (PCT/IB03/03315) Conf.3746 75010 Paris. Paris, 28th November 2005

Dear Sir, 1. I confirm that since your letters about "Projected Publication" (that was done: thank you) of 02/24/2005, I did not have any answer.

2. Unfortunately I did not receive the answer for important question of procedure (It is the same at any procedure) in my other current Application. So I repeat it here [§5 of Covering letter at entering of my Appl. 10/505,353 (PCT/EP02/02302)]: "III §5. In view of very special "strange" course of my Application, I must ask here very important question about "Notice of abandonment". In US law, concerning "Certificat of mailing or transmisson" (37 CFR §1.8, §512 MPEP) there is no mention about, even declaration, FOR nonreceiving of USPTO LETTERS (ONLY of USPTO letters!), but only text about Certificat of mailing or transmission of Applicant letter. Does it mean that USPTO finally send the registered letter wherein USPTO is sure about their receiving by Applicant and such Declaration (for nonreceiving of USPTO letter) is not needed consequently? Thank you very much for forward explanation of this TOO important information. The heavy common truth is coming from Governmental Office?..". Thank you for answer if I must receive the registered letter in the case of unproven systematic disappearances of letters of USPTO.

3. Independently: According to §1.103 (a) MPER ("Suspention of action by the Office"). (a) SUSPENTION FOR CAUSE. ("for good and sufficient cause"), ANYWAY, I ask to suspend action for 6 months. The causes are: 1). IPEA and ISA (EPO) made very intentional PENAL SURE Crimes with falsifications and I wait clear confirmation of it and REMAKING OF INTERNATIONAL EXAMINATION WITH INTERNATIONAL PHASE with basic Application (PCT/IB00/00843) and with Search of this Application (PCT/IB03/03315) (WIPO was in current of SURE falsification). (see complete VERY detailed copy of my letter to EPO of 07 NOV. 05 by e-mails as Supplement to this signed letter: James.Groody@uspto.gov, Derek.Putonen@uspto.gov, Ahmed.Hakeel@uspto.gov). One can see YET this signed letter at EPO Register (www.epo.org: "epoline"-->"Register"). Thank you in forward for such very objective (necessary for USPTO too) SUSPENTION. Sincerely yours Dr.Y.Zagyansky
